Framework for Wisconsin's Public Health System Transformation

Core Public Health Functions

1. *Assessment:* Determine community strengths and current/emerging threats to the community's health through regular and systematic review of the community's health indicators wit the public health system partners.
2. *Policy Development:* Establish a community health improvement plan and action steps with the public health system partners to promote and protect the health of the community through formal and informal policies, programs, guidelines, environmental changes, and programs and services.
3. *Assurance:* Address current/emerging community health needs/threats through governmental leadership and action with the public health system partners. Take necessary/ reasonable action through direct services, regulations, and enforcement. Evaluate the improvement plan and actions, and provide feedback to the community.
